Special Case Scenarios for CPOS Testing

1. Students enrolled in remedial course work; verify the remedial hours are calculating correctly on SFASCRE and ROAENRL
   a. Hours on SFASCRE are cumulative
   a. Student with remedial credits below 30
   b. Student with remedial credits above 30 (if applicable)
2. Federal Repeat Coursework
   a. Student with 1 attempted repeat
   b. Student with 2 attempted repeats
   c. Student with more than 2 attempted repeats
3. Courses in Program
   a. Student who is taking courses in their current program. Students should be tested from each program to verify that Degree Works is setup correctly
   b. Student who is taking a double major and taking courses in their program(s) depending upon their policy for the 2nd major.
4. Course or courses NOT in Program
   a. Student who is NOT taking courses in their Programs
5. Prerequisite Courses to take Other Courses within a Student's Program of Study
   a. PENDING GORRSQL rule to identify "prereq" courses
   b. Prereqs for major requirements where prereq is not a course option in the major
   c. e.g., students who must take college level math for a prereq in their major's math requirement
6. Preparatory coursework which is coursework required to get admitted into a program of study and is only eligible for limited amounts of Direct Loan funds over a 12 month consecutive period.
   a. PENDING GORRSQL rule to identify prep coursework
   b. prep coursework will initially be treated as remedial courses work 30 hour limit
   c. e.g., Nursing, Social Work, etc. Students must complete a designated set of course work for admission into the program
      i. Admitted in Banner as "interest" majors (Nursing Interest, etc.)
7. Student who has multiple active curriculum (dual degrees)
   a. 2 multiple active curriculum records/programs
   b. more than 2 multiple active curriculum records/programs (n/a)
8. Student who has an incorrect term catalog on SGASTDN
   a. Students in catalogs prior to creation of programs
9. Student who has priorities on SGASTDN out of sync
   a. Priority 1 major will drive Gen Ed requirements if DW is scribed using 1stMajor
10. Student going from undergraduate previous term to graduate
    a. UG students admitted to a GR program for a future term
    b. Update bannerextract.config file to bridge both programs when student has a PE record on SHADEGR and a future program
11. Students with graduation applications (SHADEGR records) not active SGASTDN
    a. CPOS REQUIRES all programs are active on SGASTDN for CPOS processing
12. Students in modular programs if allowed to register up to the program's and get Federal Aid for the additional hours
    a. Programs using parts of term with course spanning multiple sessions

13. Students who had a course change (ACCT 1010 changed to ACCT 1020) after the term has ended and aid would have paid on the course
