

UNIVERSITY SYSTEM OF GEORGIA
Information Technology Services

The top right section features a grey background with several white, stylized clouds. Below the clouds is the official logo of the University System of Georgia, which depicts a classical building with four columns. The text "BOARD OF REGENTS OF THE UNIVERSITY SYSTEM OF GEORGIA" is written in a circular path around the building.

USG GeorgiaBEST Updates

Supporting, maintaining, and delivering innovative technology solutions

Home	GeorgiaBEST (Banner Enhanced System Team) is responsible for supporting, maintaining and delivering innovative technology solutions through centrally managed applications to meet the administrative and student-focused needs of the University System of Georgia (USG) institutions.
Application Development and Support	
Managed Services Information	GeorgiaBEST successfully and seamlessly supports critical core functions such as admissions, registration, financial aid, grade reporting, student billing and refunding as well as provisioning integrations with other critical USG services like Administrative Services, the Intra-Georgia Registration Sharing System (INGRESS), GeorgiA Library LEarning Online (GALILEO), GAfutures, Brightspace by D2L (formerly Desire2Learn) Learning Management System and Data Collections.

Academic Data Collection

Spring End of Term

Key Dates

- Open date: Apr 19
- Successful Extraction Required: Apr 26
- Certification and Due date: May 20

Required value for Academic Data Collection (ADC) reporting

Data Element - Regents Satisfactory Academic Progress Code (SAP007)

https://www.usg.edu/georgia_best/application_development_and_support/data_collections

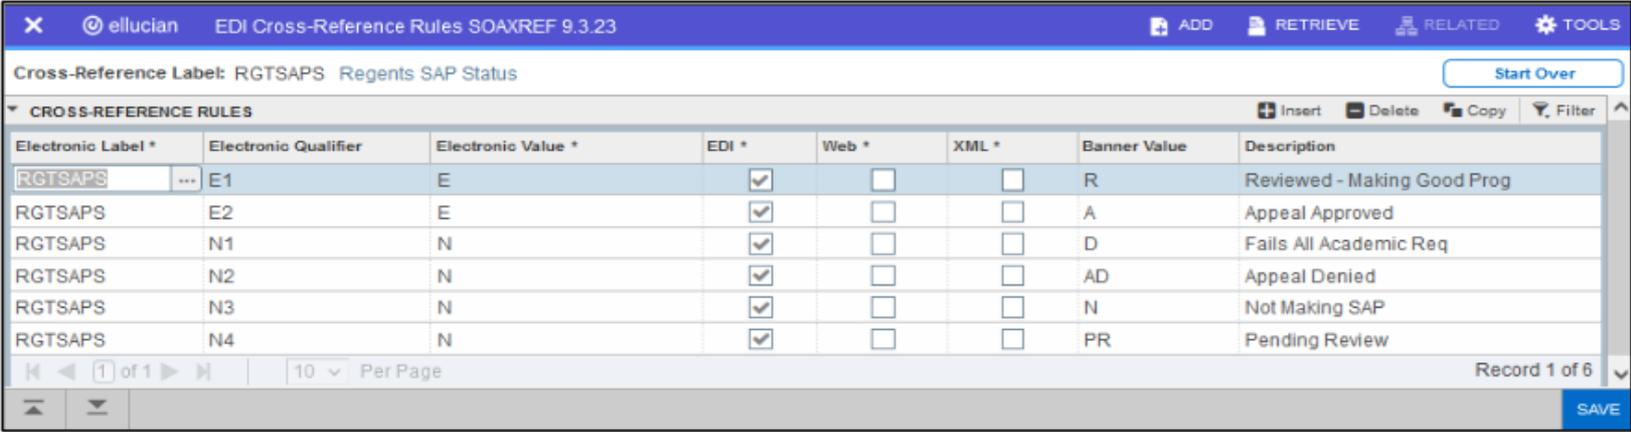

Academic Data Collection

What values should be translated?

- All active Satisfactory Academic Progress (SAP) codes validated on the Satisfactory Academic Progress Validation (RTVSAPR) page and used on the Applicant Status
- (ROASTAT) page must be translated on the Banner EDI Cross-Reference Rules(SOAXREF) page using Electronic Label RGTSAPS (Regents SAP Status). If the RGTSAPS label does not exist on SOAXREF for your institution, it must be created on the EDI Verification Label Validation (STVXLBL) page prior to use.

https://www.usg.edu/georgia_best/application_development_and_support/data_collections

What does a correct translation look like?

The screenshot shows a web application interface for "EDI Cross-Reference Rules SOAXREF 9.3.23". The page title is "Cross-Reference Label: RGTSAPS Regents SAP Status". There is a "Start Over" button in the top right. Below the title is a section for "CROSS-REFERENCE RULES" with options to "Insert", "Delete", "Copy", and "Filter". A table lists six rules for the "RGTSAPS" label. The table has columns for "Electronic Label *", "Electronic Qualifier", "Electronic Value *", "EDI *", "Web *", "XML *", "Banner Value", and "Description". The first row is highlighted. At the bottom of the table, there are navigation controls: "1 of 1" (with left and right arrows), "10 Per Page", and "Record 1 of 6". A "SAVE" button is in the bottom right corner.

Electronic Label *	Electronic Qualifier	Electronic Value *	EDI *	Web *	XML *	Banner Value	Description
RGTSAPS	E1	E	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	R	Reviewed - Making Good Prog
RGTSAPS	E2	E	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	A	Appeal Approved
RGTSAPS	N1	N	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	D	Fails All Academic Req
RGTSAPS	N2	N	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	AD	Appeal Denied
RGTSAPS	N3	N	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	N	Not Making SAP
RGTSAPS	N4	N	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	PR	Pending Review

If an Electronic Value (Regents SAP Code) is translated to more than one Banner Value (Institutional SAP Code), an Electronic Qualifier must be used.

Validation

There is one validation rule associated with the Regents Satisfactory Academic Progress Code (SAP007):

VSAP001 – If Regents Satisfactory Academic Progress Code is not null then it must be a valid code.

Academic Data Collection

Summer Mid-Term

- Beta Testing: May 2-20; dw_test@usg.edu to beta test
- Changes include:
 - Collection of new Residence Code data elements
 - Institutional Residence Code
 - Institutional Residence Code Description
 - Regents Residence Code
 - Collection of the complete High School Graduation Date
 - English Proficiency Test scores
 - Begin collection of Michigan English Test (MET) scores
 - End collection of Michigan English Language Assessment Battery (MELAB) test scores
 - Modification of test score validation logic
