Transfer Course Collection Summer 2026

In Summer 2026, Enterprise Data Management and Analytics (EDMA) will collect transfer course and grade data for students who matriculated in the prior academic year. This collection will include transfer data for 1000 and 2000 level ENGL, MATH, and STAT courses. EDMA will pull this data set over existing database links in mid-July.

Institutional course enrollment and grade data for these mathematics and writing courses are collected in the Academic Data Collection (ADC) and will not be a part of this collection.

Documentation for this collection is available at the EDMA Academic Data Collection Documentation site linked below. Additional details regarding the dates for this collection will be forthcoming.
