- FNA059 - CUI//SP-TAX Other Parent or Partner Adjusted Gross Income – Federal Tax Information

*The CUI//SP-TAX label indicates that these elements contain or are derived from federal tax information sourced from FAFSA records.

Updated FADC Data Element

Data Element updated:

- FNA012 - CUI//SP-TAX FISAP Total Income (TI)
- Previously named *Student or Parent AGI*

CUI//SP-TAX FISAP Total Income (TI) FNA012							FNA012
Category	Financial Aid / Student Financial Aid / Summary / FNA012						
Description	FISAP Total Income represents the adjusted gross income (AGI) and/or untaxed income of applicants. For dependent students, the FISAP Total Income includes parental income and assets. For independent students, the FISAP Total Income includes student and spouse income.						
Data Type	N						
Length	10						
Format	X						
Collection Period	Current		Following				
	Mid-term	End of Term	Mid-term	End of Term	Annual	Monthly	Other
					Y		
Valid Values							
Business Practices	The institutions must run the FISAP banner job submission process first. The student FAFSA information is imported into Banner for each student on a yearly basis. RORFS## will calculate the FISAP income for reporting and display on ROAFSAP. For independent students only the student's income is included in this value. For dependent students both the student's income and the parent's income are included.

Financial Aid Data Collection Data Element Dictionary Functional and Technical Definitions of Derived Variables

Last Update: August 2022

This document provides functional and technical definitions of commonly used derived variables. These variables are derived from data collected during the Financial Aid Data Collection (FADC). Many of these derived variables are used in the [Financial Aid and HOPE Scholarship](#) reports produced by the Research & Policy Analysis Office at USG. Note that these reports also include variables such as First-Time Freshmen, which are derived from data collected during the Academic Data Collection (ADC). For more details on these academic derived elements, see "[ADC Function and Technical Definitions of Derived Variables](#)."

For a full list of data elements collected during FADC see the "FADC Data Element Dictionary with Valid Values" found at https://www.usg.edu/research/reporting_resources.

Points of Contact Responsibilities

Points of Contact Responsibilities – Communication with USO

- Liaises between institution and University System Office (USO) for institutional data collection and responds in a timely manner to USO inquiries.
- Reports any changes in personnel who impact the collection in a timely manner to ITS. These changes may include new access requests, access changes, and deactivations.
- Coordinates the certification of data for each collection and ensures that the Certification Form on behalf of the institution is submitted by the due date at 5 PM (by the Registrar for ADC and by the Director of Financial Aid for FADC).
- Ensures all deadlines related to data collections are met.

Points of Contact Responsibilities – Institution Communication

- Communicates collection cycle dates (preliminary headcounts, census dates, certification and due dates) to campus partners to prevent conflicts which may delay the collection submission or skew the collected data. An example may be to advocate for Banner maintenance not to be scheduled during the final week of a collection.
- Distributes important collection announcements from USO to affected and/or interested parties on campus.
- Trains new institution personnel on collection processes and expectations, and requests training for new personnel from USO Research & Policy Analysis (RPA) & Information Technology Services (ITS) as needed.

Points of Contact Responsibilities – Data Quality Measures

- Ensures implementation of new and maintenance of current processes and procedures related to the collection (for example, proper translation of Banner codes to USG common codes) and collaborate with germane functional areas regarding changes in the collection.
- Examines turnaround reports, not limited to mandatory reports for validation for data completeness and quality.
- Ensures that errors received during the collection process are resolved and cleared. If the errors cannot be cleared, communicate the need for error relief as early as feasible.
- Ensures Data Validation Reports are validated by appropriate institution personnel prior to the collection due date at 5 PM. This may include staff from the Bursar's office, Institutional Effectiveness, Institutional Research, Financial Aid, Registrar, and Directors of Facilities.
