New Test Code Model: How Codes Are Collected

A new approach for sharing valid test codes and collecting test results

PREVIOUS MODEL

Valid test codes were hard-coded in the Campus ETL.

New codes required ETL changes.

NEW MODEL

Centralized test-code lookup values are pushed to a Campus ETL Test Codes table.

Campus ETL uses the shared list.

WHAT THIS MEANS FOR INSTITUTIONS

Banner procedures remain the same: maintain codes in STVTESC and enter scores in SOATEST.

Future test-code additions will not require Campus ETL script changes.

Collection of TOEFL Test Code Scores

- On January 21, 2026, TOEFL iBT introduced an updated scoring scale that ranges from 1.0 to 6.0 in increments of 0.5
- For the next two years, TOEFL will provide three scores on each score report:
  1. The CEFR level
  2. The overall score and section scores on the 1 to 6 scale
  3. A comparable overall score ranging from 0 to 120
- To implement this, new TOEFL (iBT) test score valid values, elements, and validations have been created.
