

GL.020.033 - BATCH SPREADSHEET JOURNAL IMPORT

Purpose	<ul style="list-style-type: none"> To identify the first step in importing spreadsheet journals by batch. To describe why users must process the journal through Journal Edit after importing from a spreadsheet. To batch import a spreadsheet journal.
Description	<p>If users enter spreadsheet journals, the journals must be written to an .xml file and then imported into PeopleSoft. After writing the journals to a file, use the Spreadsheet Journal Import process to load it into General Ledger. After the process is finished, users can pull up the journal in General Ledger. When users pull up the journal entry, the system prompts users to process the journal through Journal Edit because it was created through an external source.</p>
