

NEW USER SELF-REGISTRATION

All GeorgiaFIRST Financials users must have a user account to access GeorgiaFIRST Financials. New users have the option to self-register, which creates a base account and grants users basic sign-in rights to access GeorgiaFIRST. For institutions using the Travel & Expenses module, basic sign-in access includes the ability to create and print expense transactions.

Note: *If users need additional functionality other than base access, contact the institutional Security Administrator and/or Department Manager, as this often requires additional documentation and approval.*
