

PO.020.780 – ADDING MASTER CONTRACTS

Purpose	<ul style="list-style-type: none"> To explain the relationship between Master Contracts and the individual contracts associated to the Master Contract. To explain at least one benefit of a Master Contract. To create a Master Contract.
Description	<p>Master Contracts are used to group several contracts for the same supplier and then track them using one Master Contract ID. Master Contract ID's are associated to individual contracts for tracking purposes and to reference the agreement with the supplier.</p> <p>The Master Contract ID can be used as the number for referencing the agreement with a supplier, and each individual contract associated with the Master Contract can serve as an internal identification number.</p> <p>Before setting up a Master Contract, users must decide whether to have the system assign contract numbers automatically or assign them manually.</p>
