	<p style="text-align: center; color: green;"><b>INGRESS Release 14.2</b></p> <ul style="list-style-type: none"> <li>• <b>New Features:</b> New INGRESS roles and functionality have been implemented for USO program level staff. A Course Seat Reservation feature is now available in INGRESS. Name display updates have been implemented also.</li> <li>• <b>INGRESS Crosswalk:</b> An enhancement has been made enabling Campus Admins to unlink active receiving sections that do not have registered students. Institution Acronym has replaced SETID in Search drop down lists. A modification has been made to the search feature to process special characters in course titles correctly.</li> <li>• <b>Course Seat Management:</b> The search feature has been updated to mirror the search that is available for the Reporting feature.</li> <li>• <b>Reporting:</b> Sending and receiving CRN search options have been added to the Section and Shared Course Sections reports. Primary instructor(s) are identified and listed first on the UI, Excel reports and data files. Limited instructor information is displayed for Campus Admins from receiving schools. The program search feature has been added to the UI, Excel reports and data files of the Section, Shared Course Sections, Class Billing, INGRESS Not Processing, and User reports. Program information has been added to the Enrollment Count Summary, and Equivalency reports.</li> <li>• <b>External Enrollment Manager:</b> The processing of enrollments is now limited based on the course section end date and not final grades submission. A modification has been made to process institution acronyms of up to 8 characters. Notifications for Bulk enrollment uploads will display only the number of records that are deleted by the Campus Admins and not by INGRESS. A modification has been made to process apostrophes in students' names and email addresses correctly.</li> <li>• INGRESS performance and productivity improvements</li> </ul>	<p style="text-align: center; color: green;"><b>INGRESS Release 15.1</b></p> <ul style="list-style-type: none"> <li>• <b>New Feature:</b> An automated procedure will be implemented that will automatically extract final grades from the LMS into INGRESS, reducing manual entry by instructors in INGRESS.</li> <li>• <b>Course Seat Reservation &amp; Update:</b> Admins may change the maximum seat count for their sending course sections to zero when needed. A filter will be available for admins to select a consolidated list of their sending course sections to quickly update their maximum seat counts.</li> <li>• <b>Help Tab:</b> Institutional acronyms will be added to the list of INGRESS Campus Administrators .</li> <li>• <b>Salesforce data file enhancement:</b> A feature will be implemented that enables admins to select and update the schedule for extracting and downloading their data files.</li> <li>• <b>External Enrollment Manager:</b> Admins will be able to update students' IDs via the batch upload process. Collaborative Admins will be able to upload and manage enrollments for their assigned programs for non-USG partner schools.</li> <li>• INGRESS performance and productivity improvements.</li> </ul>	<p style="text-align: center; color: green;"><b>INGRESS Release 15.2</b></p> <ul style="list-style-type: none"> <li>• <b>New Feature:</b> The INGRESS Section Report data file will be available for scheduled download.</li> <li>• <b>Student Analytics Enhancements:</b> Course level program information will be added to the Student Analytics Report. Inactive sections and enrollments will be added to the Student Analytics extract</li> <li>• A function will be available enabling admins to remove programs that are no longer needed.</li> <li>• INGRESS performance and productivity improvements.</li> </ul>
