

# Military Space Force Student Attribute Summer 2026 Mid-Term Collection

Beginning with the Summer 2026 Mid-Term (MT) 20271 Academic Data Collection, two new military student attributes will be established and collected. The purpose of these new student attributes is to allow for tracking of students associated with Space Force, whether as Active Space Force or Dependent/Spouse of Active Space Force members.

Military student attribute codes currently collected are in black with the two new military student attribute codes and descriptions appearing in red.

Student attribute codes are collected from Banner Page SGASADD and SAAADMS. Institutional codes may be translated on SOAXREF label RGTATTS.

Admission applications managed by the system office (XAP and Element 451) will be updated to allow the collection of this data and the load to Banner. Institutions will need to work with their application vendors to ensure all other admission applications are updated to collect and push this data to Banner. This notification will be distributed to Admission Directors in addition to the ADCPOCs.

ITS will send out additional communication regarding these changes closer to the Summer 2026 MT collection. Institutions are also encouraged to sign up for beta testing with ITS prior to the opening of the Summer 2026 MT collection.

These changes to the collection were approved at the January 2026, Academic Data Governance Committee meeting.

As always, we appreciate all you do for the Academic Data Collection. Please contact us at [support@usg.edu](mailto:support@usg.edu) if you have any questions.
